

Technology kit Aqualift S Comp GTF500 Res Duo Tronic

Article information

Item no.: 280530C-TK GTIN: 4026092108031

Price group: 20

Description

For combination with a KESSEL shell kit for creating a Duo lifting station for wastewater without sewage with a GTF500 wastewater pump. The ready to plug in lifting station for wastewater without sewage is equipped with a submersible pump and a backflow preventer. The collection tank made of permanently resistant polymer (PE) has an open pump tank. Onehanded closures enable easy removal of the integrated components. The system for installation in the floor slab is pre-assembled for final installation on site. The station is controlled by a user-friendly control unit, which is optionally integrated in the building management system using a potential-free contact or alarm and collective fault messages that can be output through a GSM interface. KESSEL technology kit consisting of:

- Pumps with multi-vane vortex impeller for maximum operating safety - Resistant to saline media, wastewater from water softening systems and wastewater containing condensate from heating systems - Comfort control unit 230 V - Optical alarm probe - Pneumatic level measurement

Variant

Type of system:

Resistant:

duo pump

Resistant to saline media, wastewater from water softening systems and wastewater containing condensate from heating systems

Dimensions

Net weight: 17 kg
Gross weight: 17 kg
Packaging dimension: length
Packaging dimension: width
Packaging dimension: height

Pumping device

Pump control: GTF 500 resistant

Number of pumps:

coded plug Connection type: 2,7 A Rated current: Length of mains cable for pump: 5 m Protection class control unit:

IP 68 (3m) DSC: integrated

Max. temperature (permanent) of conveyed 40 °C

material:

Hot water resistance for a short time (2 min): 80°C Max. pumping capacity: 10 m³/h Max. pumping height: 8 m

Speed: 2800 U/min Power P1: 0.6 kW Power P2: 0.36 kW S1 Operating mode: Type of fuse required (electrical protection): C 16 A

Type of pump connection cable: H07RN-F 3G 1.5 mm² Impeller type: Multi-vane impeller

Free passage: 10 mm

Control

Control unit: Comfort optical probe Alarm sensor: Level measurement instrument: Immersion pipe Type of level measurement: pneumatic IP 54 Protection class probe: Mains frequency: 50 Hz Operating voltage: 230 V Connection type: coded plug Length of mains cable for control unit: 1,4 m Potential-free contact: optional GSM interface: yes USB interface: yes Log book function: yes Multi-line display: yes Battery buffering: yes Self-diagnosis system (SDS): yes Rated current: 2,7 A
